### BEFORE THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

DOCKET NO. 2018-72-E

In re:	)
Application of Duke Energy Carolinas, LLC for Approval of Demand-Side Management and Energy Efficiency Rider 10	DUKE ENERGY CAROLINAS, LLC'S AMENDED APPLICATION FOR APPROVAL OF RIDER 10 APPROVALOF

Pursuant to S.C. Code Ann. § 58-37-20 (2015) and 10 S.C. Code Reg. 103-819 and 823 (2012), the Rules of Practice and Procedure of the Public Service Commission of South Carolina ("Commission"), Duke Energy Carolinas, LLC (the "Company" or "Duke Energy Carolinas") hereby applies to the Commission for approval of its demand-side management ("DSM") and energy efficiency ("EE") rider for 2019 ("Rider 10"). Duke Energy Carolinas also requests that the Commission allow it to recover the costs of its Interruptible Service and Stand-By Generator programs ("Existing DSM Programs") as a component of this Rider 10. Finally, Duke Energy Carolinas reports the results of the study designed to assess the feasibility and estimated cost associated with its achievement of EE goals established in a settlement agreement in Docket Nos. 2011-158-E and 2011-68-E.

In support of this Amended Application, Duke Energy Carolinas shows the Commission the following:

#### Name and Address of Duke Energy Carolinas

1. The correct name and post office address of the Company is Duke Energy Carolinas, LLC, Post Office Box 1321, Charlotte, North Carolina 28201.

#### **Notices and Communications**

2. The names and addresses of the attorneys of Duke Energy Carolinas who are authorized to receive notices and communications with respect to this Amended Application are:

Rebecca J. Dulin

Tel. 803.231.7829
swellborn@sowellgray.com

#### **Description of the Company**

3. The Company is engaged in the generation, transmission, distribution, and sale of electric energy at retail in the western portion of South Carolina and central and western portions of North Carolina. It also sells electricity at wholesale to municipal, cooperative, and investor-owned electric utilities. Duke Energy Carolinas is a public utility under the laws of South Carolina and is subject to the jurisdiction of this Commission with respect to its operations in this State. The Company also is authorized to transact business in the State of North Carolina and is a public utility under the laws of that state. Accordingly, its operations in North Carolina are subject to the jurisdiction of the North Carolina Utilities Commission.

#### **Background**

- 4. Rider 10 seeks to recover from customers the amounts associated with the cost recovery mechanism the Commission approved in Order No. 2013-889, issued in Docket No. 2013-298-E, as well as the costs associated with Existing DSM Programs.
- 5. The recovery mechanism of the Company's EE/DSM portfolio is a shared savings model with three distinct components: (1) recovery of the costs the Company incurs to offer and deliver EE and DSM programs to customers; (2) recovery of net lost revenues incurred for up to thirty-six (36) months of a measure's life for EE programs; and (3) a shared savings incentive that is equivalent to 11.5% of net savings achieved through the Company's portfolio of EE/DSM programs.
  - 6. The Existing DSM Program recovery method remains unchanged.

#### **Components of Rider 10**

- 7. Calculations for Rider 10 were computed in accordance with the Application, testimony and the Commission's Order in Docket No. 2013-298-E. The specific components of Rider 10 include:
  - a. Year 2014, January 2014 December 2014: true-up of shared savings and Year 4 lost revenues.
  - b. Year 2015, January 2015 December 2015: true-up of shared savings, true-up of Year 1, Year 2 and Year 3 lost revenues.
  - c. Year 2016, January 2016 December 2016: true-up of shared savings, true-up of Year 1 and Year 2 lost revenues and an estimate of Year 4 lost revenues.
  - d. Year 2017, January 2017 December 2017: true-up of program costs, shared savings and Year 1 of lost revenue and an estimate of Year 3 lost revenues.
  - e. Year 2018, January 2018 December 2018: estimate of Year 2 lost revenues.
  - f. Year 2019, January 2019 December 2019: estimate of program costs, shared savings, and Year 1 lost revenues, as well as an estimate of 2019 existing DSM program costs.

#### **Rider 10 Rate Overview**

- 8. The revenue Duke Energy Carolinas proposes to recover through the proposed Rider  $10^2$  is as follows:
  - \$48,552,591 for Residential Customers (Exhibit A, Line 15) and
  - \$71,201,272 for Non-Residential Customers (Exhibit A, Line 66).

<sup>&</sup>lt;sup>1</sup> In the Company's 2013 filing, the nomenclature for a vintage changed from "Vintage" year to "Year 2014," "Year 2015," etc.

<sup>&</sup>lt;sup>2</sup> Billed at 100%, pursuant to Order 2013-889.

For Rider 10, because non-residential customers can opt-out of various components and vintage years of EE/DSM, those billing factors were separated to reflect non-residential customer participation in EE programs, DSM programs, or both EE and DSM programs. The proposed Rider 10 billing factors include prospective and true-up components. Based on the total costs to be recovered under the proposed Rider 10, as shown on Exhibit A, the billing factors applicable to South Carolina customers for the billing period January 1, 2019 through December 31, 2019, would be as follows:

Residential Billing Factors	¢/kWh
True-up Component for Years 2014, 2015, 2016 and 2017	0.1911
Prospective Component for Vintage Years 2016 – 2019	0.5552
Residential Rider 10 (Total)	0.7463

Non-Residential Billing Factors	¢/kWh
Year 2014 EE Participant – True up	0.0015
Year 2014 DSM Participant – True up	0.0010
Year 2015 EE Participant – True up	0.0438
Year 2015 DSM Participant – True up	0.0029
Year 2016 EE Participant – True up	0.0177
Year 2016 DSM Participant –True up	0.0006
Year 2017 EE Participant – True up	0.5596
Year 2017 DSM Participant – True up	0.0128
Year 2016 EE Participant - Prospective	0.0403
Year 2017 EE Participant – Prospective	0.1345
Year 2018 EE Participant – Prospective	0.1267
Year 2018 DSM Participant – Prospective	0.0058
Year 2019 EE Participant – Prospective	0.5193
Year 2019 DSM Participant – Prospective	0.1341

9. The proposed tariff sheet for Rider 10 is attached as Exhibit B to the Amended Application. A summary of the calculations used to determine these billing factors and the revenue

requirement for Rider 10 is attached as Exhibit A to the Amended Application. The supporting calculations for Exhibit A are also attached. A detailed description and evaluation of the Company's EE and DSM programs for 2017 is set forth in Rider 10, Exhibit 5.

#### **Settlement Agreement Analysis of Energy Efficiency Portfolio**

10. As a component of the Revised Settlement Agreement in Docket No. 2013-298-E, the Company agreed to develop a study designed to assess the feasibility and estimated cost associated with its achievement of aspirational Energy Efficiency Goals established in the settlement agreement in Docket Nos. 2011-158-E and 2011-68-E, *i.e.*, an annual savings target of one percent (1%) of the previous year's retail electricity sales beginning in 2015 and a cumulative savings target of seven percent (7%) of retail electricity sales over the five-year time period of 2014 - 2018. As required under the Revised Settlement Agreement, the Company has provided an update to the Energy Efficiency Analysis Study which accounts for the updated actual savings in 2017 as well as an updated projection of 2018 - 2019 in the Base Portfolio. The methodology for estimating the size and cost of the Incremental Portfolio is unchanged compared to last year. The updated Analysis Study is attached to this application as Rider 10 Exhibit 8.

#### **Conclusion and Request for Approval**

11. Based on the foregoing, the Company respectfully requests that the Commission grant its application seeking approval of Rider 10 as described in this Amended Application and supporting exhibits. Additionally, the Company acknowledges that the Commission, in Order No. 2018-205, required that notice of the filing be made, and held the Company's request for waiver of the hearing in abeyance until the intervention period has expired. The proposed rates do not require a determination of the entire rate structure and overall rate of return, and will facilitate an orderly rate administration.

Submitted this the 1st day of May, 2018.

Please note that there were adjustments to ORS program costs as a result of the Rider 7 program cost audit. \$136,514 and \$5,692 program costs were disallowed for residential and non-residential, respectively. This total will no longer tie to Year 2014 Exhibit 2.

Details outlining the change in the program cost and incentive component can be found in Year 2014 Exh 2.

Updated lost revenues by year can be found in R10 Exh 1 page 1.

Year 2016 Exh 2 (B \* D) Line 26

Details outlining the change in the program cost and incentive component can be found in Year 2016 Exh 2.

Updated lost revenues by year can be found in R10 Exh 1 page 3. Year 2017 has been updated with most recent participation. Year 3 Lost Revenues are shown as an estimate. They will be trued up in Rider 10. In addition, there is no projection for the final 1/2 year of lost revenue because for vintages prior to the test period filed in the rate case, lost revenue has been removed.

## Duke Energy Carolinas For the Period January 1, 2017 - December 31, 2017 Docket Number 2018-XX-E Forecasted kWh Net Metering Impacts for Year 2019

#### **Summary:**

SC Residential customers participating in the net Metering program are being charged a solar access fee. This fee includes a component of EE recovery.

Non-residential customers participating in the net Metering program are assumed to be opted out of the EE programs and their fee does not include an EE component.

Revenue collected as a part of this solar access fee will offset the revenue requirement of the EE rider.

Since revenue collected is not assigned a vintage, it will be subtracted from the total revenue requirment requested on Exhibit A.

### BEFORE THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

DOCKET NO.	2018- <u></u>
In re:  Application of Duke Energy Carolinas, LLC for Approval of Demand-Side Management and Energy Efficiency Rider 10	

Pursuant to S.C. Code Ann. § 58-37-20 (2015) and 10 S.C. Code Reg. 103-819 and 823 (2012), the Rules of Practice and Procedure of the Public Service Commission of South Carolina ("Commission"), Duke Energy Carolinas, LLC (the "Company" or "Duke Energy Carolinas") hereby applies to the Commission for approval of its demand-side management ("DSM") and energy efficiency ("EE") rider for 2019 ("Rider 10"). Duke Energy Carolinas also requests that the Commission allow it to recover the costs of its Interruptible Service and Stand-By Generator programs ("Existing DSM Programs") as a component of this Rider 10. Finally, Duke Energy Carolinas reports the results of the study designed to assess the feasibility and estimated cost associated with its achievement of EE goals established in a settlement agreement in Docket Nos. 2011-158-E and 2011-68-E.

In support of this <u>Amended</u> Application, Duke Energy Carolinas shows the Commission the following:

#### Name and Address of Duke Energy Carolinas

1. The correct name and post office address of the Company is Duke Energy Carolinas, LLC, Post Office Box 1321, Charlotte, North Carolina 28201.

#### **Notices and Communications**

2. The names and addresses of the attorneys of Duke Energy Carolinas who are authorized to receive notices and communications with respect to this <u>Amended Application</u> are:

Rebecca J. Dulin
Duke Energy Corporation
1201 Main Street, Capital Center Building, Suite 1180
Columbia, SC 29201
Tel. 803.988.7130
rebecca.dulin@duke-energy.com

Samuel J. Wellborn
SOWELL GRAY ROBINSON STEPP & LAFFITTE, LLC
1310 Gadsden Street
Columbia, SC 29201
Tel. 803.231.7829
swellborn@sowellgray.com

#### **Description of the Company**

3. The Company is engaged in the generation, transmission, distribution, and sale of electric energy at retail in the western portion of South Carolina and central and western portions of North Carolina. It also sells electricity at wholesale to municipal, cooperative, and investor-owned electric utilities. Duke Energy Carolinas is a public utility under the laws of South Carolina and is subject to the jurisdiction of this Commission with respect to its operations in this State. The Company also is authorized to transact business in the State of North Carolina and is a public utility under the laws of that state. Accordingly, its operations in North Carolina are subject to the jurisdiction of the North Carolina Utilities Commission.

#### **Background**

- 4. Rider 10 seeks to recover from customers the amounts associated with the cost recovery mechanism the Commission approved in Order No. 2013-889, issued in Docket No. 2013-298-E, as well as the costs associated with Existing DSM Programs.
- 5. The recovery mechanism of the Company's EE/DSM portfolio is a shared savings model with three distinct components: (1) recovery of the costs the Company incurs to offer and deliver EE and DSM programs to customers; (2) recovery of net lost revenues incurred for up to thirty-six (36) months of a measure's life for EE programs; and (3) a shared savings incentive that is equivalent to 11.5% of net savings achieved through the Company's portfolio of EE/DSM programs.
  - 6. The Existing DSM Program recovery method remains unchanged.

#### **Components of Rider 10**

- 7. Calculations for Rider 10 were computed in accordance with the Application, testimony and the Commission's Order in Docket No. 2013-298-E. The specific components of Rider 10 include:
  - a. Year 2014, January 2014 December 2014: true-up of shared savings and Year 4 lost revenues.
  - b. Year 2015, January 2015 December 2015: true-up of shared savings, true-up of Year 1, Year 2 and Year 3 lost revenues.
  - c. Year 2016, January 2016 December 2016: true-up of shared savings, true-up of Year 1 and Year 2 lost revenues and an estimate of Year 4 lost revenues.
  - d. Year 2017, January 2017 December 2017: true-up of program costs, shared savings and Year 1 of lost revenue and an estimate of Year 3 lost revenues.
  - e. Year 2018, January 2018 December 2018: estimate of Year 2 lost revenues.
  - Year 2019, January 2019 December 2019: estimate of program costs, shared savings, and Year 1 lost revenues, as well as an estimate of 2019 existing DSM program costs.
- Lost revenues associated with participants enrolled in certain vintages have been removed and will be reflected in rates filed for approval in future proceedings.

<sup>&</sup>lt;sup>1</sup> In the Company's 2013 filing, the nomenclature for a vintage changed from "Vintage" year to "Year 2014," "Year 2015," etc.

#### **Rider 10 Rate Overview**

9.8. The revenue Duke Energy Carolinas proposes to recover through the proposed Rider 10<sup>2</sup> is as follows:

- \$42,969,86448,552,591 for Residential Customers (Exhibit A, Line 15) and
- \$\frac{62,585,978}{71,201,272}\$ for Non-Residential Customers (Exhibit A, Line 66).

For Rider 10, because non-residential customers can opt-out of various components and vintage years of EE/DSM, those billing factors were separated to reflect non-residential customer participation in EE programs, DSM programs, or both EE and DSM programs. The proposed Rider 10 billing factors include prospective and true-up components. Based on the total costs to be recovered under the proposed Rider 10, as shown on Exhibit A, the billing factors applicable to South Carolina customers for the billing period January 1, 2019 through December 31, 2019, would be as follows:

Residential Billing Factors	¢/kWh
T. C. V. 2014 2015 2016 1	0.1.0001011
True-up Component for Years 2014, 2015, 2016 and	0. <del>1698</del> <u>1911</u>
2017	
Prospective Component for Vintage Years 20172016 –	0. <del>4907</del> <u>5552</u>
2019	
Residential Rider 10 (Total)	0. <del>6605</del> <u>7463</u>

Non-Residential Billing Factors	¢/kWh				
	2 2 2 4 7				
Year 2014 EE Participant – True up	0.0015				
Year 2014 DSM Participant – True up	0.0010				
Year 2015 EE Participant – True up	0. <del>0426</del> <u>0438</u>				
Year 2015 DSM Participant – True up	0.0029				
Year 2016 EE Participant – True up	<del>(</del> 0. <del>0028)</del> <u>0177</u>				
Year 2016 DSM Participant –True up	0.0006				

<sup>&</sup>lt;sup>2</sup> Billed at 100%, pursuant to Order 2013-889.

Year 2017 EE Participant – True up	0. <del>5307</del> <u>5596</u>
Year 2017 DSM Participant – True up	0.0128
Year 2016 EE Participant - Prospective	<u>0.0403</u>
Year 2017 EE Participant – Prospective	0. <del>0297</del> <u>1345</u>
Year 2018 EE Participant – Prospective	0.1267
Year 2018 DSM Participant – Prospective	0.0058
Year 2019 EE Participant – Prospective	0.5193
Year 2019 DSM Participant – Prospective	0.1341

10.9. The proposed tariff sheet for Rider 10 is attached as Exhibit B to the Amended Application. A summary of the calculations used to determine these billing factors and the revenue requirement for Rider 10 is attached as Exhibit A to the Amended Application. The supporting calculations for Exhibit A are also attached. A detailed description and evaluation of the Company's EE and DSM programs for 2017 is set forth in Rider 10, Exhibit 5.

#### **Settlement Agreement Analysis of Energy Efficiency Portfolio**

11-10. As a component of the Revised Settlement Agreement in Docket No. 2013-298-E, the Company agreed to develop a study designed to assess the feasibility and estimated cost associated with its achievement of aspirational Energy Efficiency Goals established in the settlement agreement in Docket Nos. 2011-158-E and 2011-68-E, *i.e.*, an annual savings target of one percent (1%) of the previous year's retail electricity sales beginning in 2015 and a cumulative savings target of seven percent (7%) of retail electricity sales over the five-year time period of 2014 - 2018. As required under the Revised Settlement Agreement, the Company has provided an update to the Energy Efficiency Analysis Study which accounts for the updated actual savings in 2017 as well as an updated projection of 2018 - 2019 in the Base Portfolio. The methodology for estimating the size and cost of the Incremental Portfolio is unchanged compared to last year. The updated Analysis Study is attached to this application as Rider 10 Exhibit 8.

#### **Conclusion and Request for Approval**

12.11. Based on the foregoing, the Company respectfully requests that the Commission grant its application seeking approval of Rider 10 as described in this Amended Application and supporting exhibits. Additionally, the Company acknowledges that the Commission, in Order No. 2018-205, required that notice of the filing be made, and held the Company's request for waiver of the hearing in abeyance until the intervention period has expired would ask the Commission to allow the proposed rate to be put into effect without notice and hearing pursuant to S.C. Code § 58-27-870(F) (2015). The proposed rates do not require a determination of the entire rate structure and overall rate of return, and will facilitate an orderly rate administration.

Submitted this the 2nd-1st day of March May, 2018.

#### RIDER EE (SC) **ENERGY EFFICIENCY RIDER**

#### APPLICABILITY (South Carolina Only)

Service supplied under the Company's rate schedules is subject to approved adjustments for new energy efficiency and demand-side management programs approved by the Public Service Commission of South Carolina (PSCSC). The Rider Adjustments are not included in the Rate Schedules of the Company and therefore, must be applied to the bill as calculated under the applicable rate. As of January 1, 2019, cost recovery under Rider EE consists of the four year term program, years 2014-2017, as well as rates under the continuation of that program for years 2018-2019 as outlined below. This rider applies to service supplied under all rate schedules except rate schedules OL, FL, PL, GL and NL for program years 2014-2019.

The Rider will recover the cost of Duke Energy Carolinas' Interruptible Service and Stand-By Generator programs ("Existing DSM Programs") based on the cost of bill credits and amounts paid to customers participating on these programs ("Program Costs"). Revenue requirements will be determined on a system basis and allocated to SC retail customer classes based on the class contribution to system peak demand.

#### GENERAL PROVISIONS

This Rider will recover the cost of the Company's energy efficiency and demand-side management programs beginning January 1. 2014, using the method approved by the PSCSC set forth in Order No. 2013-889.

#### TRUE-UP PROVISIONS

Rider amounts will initially be determined based on estimated kW and kWh impacts related to expected customer participation in the programs, and will be trued-up on an annual basis as actual customer participation and actual kW and kWh impacts are verified. The true-up will reflect actual participation and EM&V results for the most recently completed vintage. If a customer participates in any vintage of programs, the customer is subject to the true-ups for any vintage of programs in which the customer participated.

#### RIDER EE OPT OUT PROVISION FOR QUALIFYING NON-RESIDENTIAL CUSTOMERS

The Rider EE increment applicable to energy efficiency programs and/or demand-side management programs will not be applied to the energy charge of the applicable rate schedule for Customers qualified to opt out of the programs where:

- The Customer has notified the Company in writing that it elects to opt out and that the opt-out customer has implemented its own energy management system or has performed or had performed for it an energy audit or analysis within the three year period preceding the opt out request and has implemented or has plans for implementing the cost-effective energy efficiency measures recommended in that audit or analysis; and
- Electric service to the Customer must be provided under:
  - An electric service agreement where the establishment is classified as a "manufacturing industry" by the Standard Industrial Classification Manual published by the United States Government and where more than 50% of the electric energy consumption of such establishment is used for its manufacturing processes; or
  - An electric service agreement for general service as provided for under the Company's rate schedules where the Customer's annual energy use is 1,000,000 kilowatt hours or greater in the billing months of the prior calendar year. Additionally, all other agreements billed to the same entity with lesser annual usage located on the same or contiguous properties are also eligible to opt out.

For Customers who elect to opt out of Energy Efficiency Programs, the following provisions also apply:

- Qualifying customers may opt out of the Company's energy efficiency programs each calendar year only during the designated annual two-month enrollment period. For the Rider EE 2019 Program Year, the enrollment period begins November 1, 2018 and ends December 31, 2018.
- Customers may not opt out of individual energy efficiency programs offered by the Company. The choice to opt out applies to the Company's entire portfolio of energy efficiency programs.
- If a customer participates in any vintage of energy efficiency programs, the customer, irrespective of future opt-out decisions, remains obligated to pay the remaining portion of the lost revenues for each vintage of efficiency programs in which the customer participated.
- Customers who elect to opt out during the two-month annual enrollment period immediately prior to the new Rider EE becoming effective may elect to opt in to the Company's energy efficiency program during the first 5 business days of March each calendar year. Customers making this election will be back-billed to the effective date of the new Rider EE.

South Carolina Tenth Revised Leaf No. 62

Effective for service rendered from January 1, 2019 to December 31, 2019

PSCSC Docket No. 2018-XX-E

LECTRONICALLY FILED - 2018 May 1 4:46 PM - SCPSC - Docket # 2018-72-E - Page 61 of 63

#### RIDER EE (SC) **ENERGY EFFICIENCY RIDER**

For Customers who elect to opt out of Demand-Side Management Programs, the following provisions also apply:

- Qualifying customers may opt out of the Company's demand-side management program during the enrollment period between November 1, and December 31 immediately prior to a new Rider EE becoming effective on January 1 of the applicable year. (Qualifying new customers have sixty days after beginning service to opt out).
- If a customer elects to participate in a demand-side management program, the customer may not subsequently choose to opt out of demand-side management programs for three years.
- Customers who elect to opt out during the two-month annual enrollment period immediately prior to the new Rider EE becoming effective may elect to opt in to the Company's demand-side management program during the first 5 business days of March each calendar year. Customers making this election will be back-billed to the effective date of the new Rider EE.

Any qualifying non-residential customer that has not participated in an energy efficiency or demand-side management program may opt out during any enrollment period, and have no further responsibility to pay Rider EE amounts associated with the Customer's opt out election for energy efficiency and/or demand-side management programs.

#### ENERGY EFFICIENCY RIDER ADJUSTMENTS (EEA) FOR ALL PROGRAM YEARS

The Rider EE amounts applicable to the residential and nonresidential rate schedules for the period January 1, 2019 through December 31, 2019 including revenue-related taxes and utility assessments are as follows:

#### Residential

0.7463¢ per kWh Vintage 2014, 2015, 2016, 2017, 2018, 2019 **Total Residential** 0.7463¢ per kWh

#### **Nonresidential**

	Energy Efficiency	Demand-Side Management
2014 Vintage*	0.0015¢ per kWh	0.0010¢ per kWh
2015 Vintage*	0.0438¢ per kWh	0.0029¢ per kWh
2016 Vintage*	0.0580¢ per kWh	0.0006¢ per kWh
2017 Vintage*	0.6941¢ per kWh	0.0128¢ per kWh
2018 Vintage*	0.1267¢ per kWh	0.0058¢ per kWh
2019 Vintage*	0.5193¢ per kWh	0.1341¢ per kWh

Total Vintage

2014, 2015, 2016, 2017 and 2018, 2019

1.4434¢ per kWh

0.1572¢ per kWh

**Total Nonresidential** 

1.6006¢ per kWh

Each factor listed under Nonresidential is applicable to nonresidential customers who are not eligible to opt out and to eligible customers who have not opted out. If a nonresidential customer has opted out of a Vintage(s), then the applicable energy efficiency and/or demand-side management charge(s) shown above for the Vintage(s) during which the customer has opted out, will not apply to the bill.

South Carolina Tenth Revised Leaf No. 62 Effective for service rendered from January 1, 2019 to December 31, 2019 PSCSC Docket No. 2018-XX-E

<sup>\*</sup> Not Applicable to Rate Schedules OL, FL, PL, GL, and NL

Rider amounts will initially be determined based on estimated kW and kWh impacts related to expected customer participation in the programs, and will be trued-up on an annual basis as actual customer participation and actual kW and kWh impacts are verified. The true-up will reflect actual participation and EM&V results for the most recently completed vintage. If a customer participates in any vintage of programs, the customer is subject to the true-ups for any vintage of programs in which the customer participated.

#### RIDER EE OPT OUT PROVISION FOR QUALIFYING NON-RESIDENTIAL CUSTOMERS

The Rider EE increment applicable to energy efficiency programs and/or demand-side management programs will not be applied to the energy charge of the applicable rate schedule for Customers qualified to opt out of the programs where:

- a. The Customer has notified the Company in writing that it elects to opt out and that the opt-out customer has implemented its own energy management system or has performed or had performed for it an energy audit or analysis within the three year period preceding the opt out request and has implemented or has plans for implementing the cost-effective energy efficiency measures recommended in that audit or analysis; and
- b. Electric service to the Customer must be provided under:
  - An electric service agreement where the establishment is classified as a "manufacturing industry" by the Standard Industrial Classification Manual published by the United States Government and where more than 50% of the electric energy consumption of such establishment is used for its manufacturing processes; or
  - 2. An electric service agreement for general service as provided for under the Company's rate schedules where the Customer's annual energy use is 1,000,000 kilowatt hours or greater in the billing months of the prior calendar year. Additionally, all other agreements billed to the same entity with lesser annual usage located on the same or contiguous properties are also eligible to opt out.

For Customers who elect to opt out of Energy Efficiency Programs, the following provisions also apply:

- Qualifying customers may opt out of the Company's energy efficiency programs each calendar year only during the
  designated annual two-month enrollment period. For the Rider EE 2019 Program Year, the enrollment period begins
  November 1, 2018 and ends December 31, 2018.
- Customers may not opt out of individual energy efficiency programs offered by the Company. The choice to opt out applies
  to the Company's entire portfolio of energy efficiency programs.
- If a customer participates in any vintage of energy efficiency programs, the customer, irrespective of future opt-out decisions, remains obligated to pay the remaining portion of the lost revenues for each vintage of efficiency programs in which the customer participated.
- Customers who elect to opt out during the two-month annual enrollment period immediately prior to the new Rider EE
  becoming effective may elect to opt in to the Company's energy efficiency program during the first 5 business days of
  March each calendar year. Customers making this election will be back-billed to the effective date of the new Rider EE.

#### Superseding South Carolina Ninth Revised Leaf No. 62

#### RIDER EE (SC) **ENERGY EFFICIENCY RIDER**

For Customers who elect to opt out of Demand-Side Management Programs, the following provisions also apply:

- Qualifying customers may opt out of the Company's demand-side management program during the enrollment period between November 1, and December 31 immediately prior to a new Rider EE becoming effective on January 1 of the applicable year. (Qualifying new customers have sixty days after beginning service to opt out).
- If a customer elects to participate in a demand-side management program, the customer may not subsequently choose to opt out of demand-side management programs for three years.
- Customers who elect to opt out during the two-month annual enrollment period immediately prior to the new Rider EE becoming effective may elect to opt in to the Company's demand-side management program during the first 5 business days of March each calendar year. Customers making this election will be back-billed to the effective date of the new Rider EE.

Any qualifying non-residential customer that has not participated in an energy efficiency or demand-side management program may opt out during any enrollment period, and have no further responsibility to pay Rider EE amounts associated with the Customer's opt out election for energy efficiency and/or demand-side management programs.

#### ENERGY EFFICIENCY RIDER ADJUSTMENTS (EEA) FOR ALL PROGRAM YEARS

The Rider EE amounts applicable to the residential and nonresidential rate schedules for the period January 1, 2019 through December 31, 2019 including revenue-related taxes and utility assessments are as follows:

#### Residential

0.66057463¢ per kWh Vintage 2014, 2015, 2016, 2017, 2018, 2019 **Total Residential** 0.<del>6605</del>7463¢ per kWh

#### **Nonresidential**

	Energy Efficiency	Demand-Side Management
2014 Vintage*	0.0015¢ per kWh	0.0010¢ per kWh
2015 Vintage*	0. <del>0426</del> <u>0438</u> ¢ per kWh	0.0029¢ per kWh
2016 Vintage*	(0.0028)0.0580¢ per kWh	0.0006¢ per kWh
2017 Vintage*	0. <del>5604<u>6941</u>¢ per kWh</del>	0.0128¢ per kWh
2018 Vintage*	0.1267¢ per kWh	0.0058¢ per kWh
2019 Vintage*	0.5193¢ per kWh	0.1341¢ per kWh

Total Vintage

2014, 2015, 2016, 2017 and

1.24774434¢ per kWh 2018, 2019

0.1572¢ per kWh

**Total Nonresidential** 

1.40496006¢ per kWh

Each factor listed under Nonresidential is applicable to nonresidential customers who are not eligible to opt out and to eligible customers who have not opted out. If a nonresidential customer has opted out of a Vintage(s), then the applicable energy efficiency and/or demand-side management charge(s) shown above for the Vintage(s) during which the customer has opted out, will not apply to the bill.
